EDUCATION:

College: -Valparaiso University, Valparaiso, Indiana
Attended from fall 1974 through Spring of 1975.
-Indiana University
Transferred to Indiana University in fall 1975 and
graduated January, 1981 (Bachelor's degree).

EXPERIENCE:

I have over 40 years of full-time experience as a Police Officer, ATF Agent/Firearm Specialist, Criminal Investigator, Range Instructor, teacher of firearm technology, ammunition and firearm manufacturer, and collector. I have examined well over 100,000 firearms and even more pieces of ammunition. I've been involved in numerous investigations concerning them, and I have testified continually in criminal & civil cases in State, Superior, Circuit, District and Federal Courts since 1978. I have been recognized as an expert witness in Federal and State courts since 1990 and have given numerous depositions in criminal and civil cases. I have testified and/or consulted as an expert on the topics of use of force, self-defense with a firearm, ballistics, gunshot residue, interstate nexus, federal and state firearm regulations, trade dress, ATF rulings, ATF compliance and procedures, shooting reconstruction, firearm classification, firearm design, and wrongful death. My testimony in 2019 resulted in the Bureau of ATF undertaking a 2-5 year rewrite of the definition of a firearm "frame or receiver", as the one that they have applied for 48 years does not match 60% of the firearms on the market.

I am one of only two ATF Agents who have performed an undercover investigation of illicit international firearm trafficking in Europe, and was the undercover Agent in the investigation of international arms dealer Efraim Diveroli, a case which resulted in the 2016 movie "War Dogs". Since 1996 I have been a full-time instructor of most facets of the field of firearms, including ballistics, forensics, ATF compliance and regulations, markings, manufacture, classification, and specialize in establishing the interstate nexus of firearms and ammunition in federal court. I have

taught these topics countless times from coast to coast, and several times each, in Europe and Africa, and am a Technical Advisor to the Association of Firearm and Tool Mark Examiners, as well as an Advisory Board Member of the Sonoran Desert Institute. I co-wrote the lesson plans for the ATF National Academy, and the firearm technology and compliance training program for Cabela's, Inc., which was the largest firearm retailer in the world. I also served for two years as one of Cabela's corporate ATF Compliance Managers. My training is also approved as continuing education by the American Board of Medico-legal Death Investigators and the International Association for Identification, and I am a contracted instructor for the FBI. I also am a firearm designer and hold a patent, as registered with the U.S Patent Office.
